

# *Request for Proposals*

## **Bonner County Human Rights Task Force**

The BONNER COUNTY HUMAN RIGHTS TASK FORCE is seeking proposals from community non-profits, and educational and governmental agencies for the development and implementation of projects specific to issues of Human Rights. This can include:

- Eliminating barriers to full community participation to anyone because of socio-demographic characteristics such as race, ethnicity, religion, disability, sexual orientation, gender identity or economic status.
- Providing exposure to cultural diversity to reduce fear that could lead to unwarranted stereotyping or exclusion.
- Addressing causes of bigotry or harassment resulting from misinformation, falsehoods or lack of exposure to cultural diversity.
- Creating safe, inclusive, supportive and respectful environments for youth and other groups needing special support.

Do you have ideas about promoting awareness and understanding of Human Rights that will help foster a more inclusive and welcoming community? Do you wish for more equity and less discrimination based on the labels we give each other and the division that they create?

Read about the Task Force's mission, goals, and guidelines for our grants at [www.bchrtf.org](http://www.bchrtf.org). Grants of up to \$8000 will be awarded. Deadline for submitting is April 30 of this year.
